Addresses Students of Booker Washington's School at Tuskegee.

ARGES WHITES TO LEND AID.

Tells His Hearers That No Permanent Benefits Can Come if They Do Not Learn to Help Themselves.

ROOSEVELT IRGES NEGROES

TO HELP THEMSELVES.

To hear file appreciate what you have done at Kuskege, and I am sure you will not gradge my saving that it could not possibly have been done save for the loyal support you have received from the white people maind about; for during the twenty-five years of effort to educate the black man here in the midst of a white community of intelligence and endure there has never been an outbreak between the races or any difficulty of any kind.

"Now, let you remember, on the "Now, let you remember, on the ther hand, that no help can per-secently atall you save as you ourselves develop canacity for self-

Institute, Ala., Oct. 24.-Presiosevelt reached the grounds of the e Industrial Institute after a brief the town of Tuskegee, where he

You young colored men and en, educated at Tuskegee, must precept and example lead your was toward sober, industrious, whiches lives.

the tracks.

From midnight until this morning great
rowds of country people, white and
lack, were arriving from all sections suramding Tuskegee. A motiey assortment
t vehicles brought hundreds of persons,
and were allowed to come into the instinie grounds, where the President saw the
allection and seemed amused by the

President was received by Principal or T. Washington and the members o institute's Board of Trustees and the institute's Board of Trustees and sity. He then entered a carriage is by the students of the school, drawn horses raised at the school, and driven a student in the school uniform. Four er carriages, also made by these stute, in which were seated other memorately decorated stand, in front of office building, surmomiately to an sociately decorated stand, in front of office building, surmomiated by the sident's flar. From this point the sident's flar. From this point the sident viewed the educational and intrini parade, upon the preparation of the the students and faculty have been work for several weeks.

REVIEWS PARADE.

REVIEWS PARADE. s parade was headed by the insti-ional, led by Bandmaster Elbert R. ama of the Ninth United States Cav-who had been detailed to Tuskegee war Department. Then came 1,509 nis of the school in two divisions, the men uniformed in blue suits, with buttons, white gloves and cadet

coung women, wearing blue dresses, al with red braid, and wearing blue braid hats, followed, each bearing a of sugar cane, topped with a cot-di, all raised in the school's agrioit, all raised in the school's agri-al experiment station, ediately behind the student body s'xty-one floats, representing the s phases of work of the academy tment, and the thirty-seven indus-

divisions of the school.

or the parade had passed, and the
ents, faculty and visitors were repairto the chapel, the presidential party
driven hurriedly about the grounds. was shown the extent and scope of its being carried on by the students institute. Then to the chapel the parameters taken, where the students leave institute chair of 120 voices, sang a later of plantation melodies.

Kelley, Doctor H. H. Neyer and J. L.
Grether.

FIVE STORES BURN AT SIBLEY. Illinois Town Suffers From \$25, 000 Blaze.

REPUBLIC SPECIAL.

The Foundation of St. Louis The best security on earth is Real Estate.

One of the best places to invest in Real Estate is

The most desirable Real Estate of St. Louis is-UNIVERSITY MEIGHTS.

UNIVERSITY MEIGHTS lies in the inevitable and attractive parts of St. Louis development; you can't keep the western growth of this city back, or halt it, or stop it.

St. Louis is moving. St. Louis is moving to the heights; just as New York did, and Philadelphia and Cincinnati; just as Chicago is moving now.

High ground—UNIVERSITY NEIGHTS.
High ground—is the vantage ground of real estate—
the valuable ground—rich property. Here is the whole history of real estate: Where was it-where is it-where is it going to be? You can't invest backwards. There are no convulsions in St. Louis real estate. St. Louis is growing-growing out towards the heights, logically,

rationally, naturally. UNIVERSITY HEIGHTS property is cheap now because the congested city hasn't swallowed it. Now's the investing time. Nobody can buy all of it. That is why it is a public possibility—not a private possession. Lots in UNIVERSITY HEIGHTS are the growth-bonds of

St. Louis. They'll double in value. Buying new you don't have one dollar of interest to pay for over two years. You make your investment and have it safe in the highest high-class private-residencepark-district of St. Louis and much below its real value, less than 50% its future value. We put our judgment behind this statement. We sold \$10,666,000 worth of St. Louis real estate the first half of this year, which ought to count for something for our judgment. If you doubt the future of the MEIGHTS of St. Louis, watch the street cars. Traffic proves it-travel proves it-the best people-home people-families-builders.

These lots are selling now, and selling fast. Here's the reason: 10% cash down, no taxes until December, 1906, and not a cent of interest until January, 1908, and only 4% after that. Thirty.one lots have been sold this week upon which thirt-yone homes will be built within 6 months.

Read this announcement two years from to-day; cut it out and pin it to your title deed. It will make good

WINDOW GLASS IS REDUCED. Signers of Amalgamated Scale

Must Also Revise Scale.

Hartford City. Ind., Oct. 24.—Developments in the glass situation took a sudden and unexpected turn to-day, when John R. Johnston of this city, president of the National Association of Window Glass Manufacturers, quoted the price of window glass at 9 and 12 off.

This is a new agreement, and will mean that the signers of the amalgamated scale, including the plants that recently deserted the National Association, will have to revise their scale before they can go to work.

COMMITTEE SPLITS | SECRET MARRIAGE ON CHESLEY ISLAND

City Garbage Bill Is Sent to Engrossment With Councilman Moellman Dissenting — Would Prevent Street Car Accidents.

A communication from the Undertakers' Association urging the Board of Public Improvements to improve the thorough-fares icasling to the Calvary and Bellefontains cometeries, resulted in favorable action being taken toward the improvement of Union boulevard between Natural Bridge road and Sircher street, and Bernays avenue, between Eircher street and Piorissant avenue.

The driveways to these cemeteries are hardly passable in had weather, and even in fair weather a long funeral procession encounters much difficulty in reaching the gates.

AMERICA TO AID RUSSIA Morgan and Perkins to Participate in Loan.

St. Petersburg. Oct. 24.—The negotiations for the new Russian ions proceeded rap-illy to-day, and success is considered to be practically assured. J. Pierport Morgan Jr. and George W. Perkins are now apparently better satisfied with the terms and conditions, and unless an unference point arises American participation is regarded as certain.

ROOSEVELT GIVES AX TO GUIDE

Kermit's Guardian on Hunting Trip Receives Token.

To Detective Faculties of Youngster Mr. and Mrs. William K. Stevenson Credit Publication of Wedding Last November.

Doctor Otto Koch, Coroner of St. Lauis County, yesterday held an inquest over the body of an unidentified man found in the Mississippi river at the White House near Cliff Cave, Monday afternoon. The body was found by Government employes at work on a dredge boat.

Nothing was found that would lead to an identification. Doctor Koch mid that decomposition had set in and that the body had been in the water at least a week and probably as long as three weeks.

week and probably as long as three weeks.

The dead man was apparently about 49 years old, about five feet seven inches in height, weighed in the neighborhood of 169 pounds, had a light brown mustache, dark hair streaked with gray, brown dyes, were dark vest and trousers with smail white stripes, turndown collar, black bow tie, black gater shoes about No. 9 and gray cotton socks.

The ciothes were of a superior material. After the jury had randsred a vertical of death by drowning, the body was buried near the spot where it was brought ashore.
